EXPERIENCE

CEO & Product Designer / Eatwell

JUL 2013 – PRESENT (SUNNYVALE, CA)

- Designed healthcare products from concept to final manufactured process including: user and market research, competitive analysis, sketches, prototypes, user testing, and 3D models
- Coordinated the supply chain, including manufacturers, packaging suppliers, and warehouses to create appealing and functional products within budget
- Launched products to the market successfully with distribution channels in 6 countries.

UX Researcher & Designer / Tangible

JUL – AUG 2020 (STANFORD, CA)

- Converged & defined the MVP for the first product launched
- Conducted user research and interviews to synthesize user insight, discovered user needs, and ideated potential solutions to optimizing the experience of users

UX Designer / Netlink

NOV 2019 – JAN 2020 (SUNNYVALE, CA)

- Conducted qualitative user research: conducted 15+ interviews, surveys, analyzed and synthesized findings
- Created user flows, wireframes, user interface, mockups, and click-through prototypes to effectively communicate interaction and design ideas

Lecturer / Stanford University

MAR 2015 – MAR 2020 (STANFORD, CA)

- Guest lectured Perspectives in Assistive Technology class

UX / Product Designer / ScienceVR

MAR 2018 – JUN 2019 (PALO ALTO, CA)

- Designed immersive educational virtual reality gaming experiences with product teams including developers, researchers, and artists to translate abstract concepts into easy to comprehend visuals
- Moderated user studies to identify critical factors impacting product value and user experience
- Selected to participate as a member of the class of Oculus Launchpad 18. This VR fellowship program is a springboard for diversity in creativity and development of innovative VR experiences and content
